VOLUME CVI.---NO. 77. ALEXANDRIA, VA., SATURDAY EVENING, APRIL 1, 1905. PRICE 2 CENTS.

Let go or die. That's the alternative of the shipwrecked man with the money bags. A great many people have a like alternative before them. Business men come to a point where the doctor tells them that they must "let go or die." Probably he advised a sea voyage or mountain air. There's an obstinate cough that won't be shaken off. The lungs are weak and perhaps bleeding. There is emaciation and other symptoms of disease, which if unskilfully or improperly treated terminate in consumption.

Thousands of men and women in a like condition have found complete healing by the use of Dr. Pierce's Golden Medical Discovery.

"It gives me pleasure to send you this testimonial so that some other poor sufferer may be saved, as I was, by Dr. Pierce's Golden Medical Discovery," writes Geo. A. Thompson, of Sheldon Ave., Chatham, Ont., Canada. "I had a cough for years, expectorated a great deal, and was slowly failing. Was losing flesh every day. Lost in weight from 150 pounds down to 128. My flesh got soft and I had no strength. Did not say anything to any one but made up my mind that the end was not far off. One day my wife was reading in the 'Common Sense Medical Adviser' about Dr. Pierce's Golden Medical Discovery, and I said, *that* sounds more like common sense than anything else that I had heard. I at once bought a bottle of your famous remedy and before I had taken half of one bottle I felt better. Took thirteen bottles and it made a new man of me. I gained sixteen pounds and never have had a cough since. I feel splendid and give all the credit to your medicine."

Given away. The People's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing *only*. The book contains 1008 pages, over 700 illustrations and several colored plates. Send 21 one-cent stamps for the paper-bound book, or 31 stamps for the cloth bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

Pierce's Pleasant Pellets cure bad, foul stomach and constipation and so *help* to cure nearly every disease of mankind. They regulate, tone up and invigorate Stomach, Liver and Bowels.

CLEANLY WOMAN.

Erroneously Thinks by Scouring Her Scalp That She Cures Dandruff.

Cleanly woman has an erroneous idea that by scouring the scalp, which removes the dandruff scales, she is curing the dandruff! She may wash her scalp every day, and yet have dandruff her life long, accompanied by falling hair, too. The only way in the world to cure dandruff is to kill the dandruff germ, and there is no hair preparation that will do that but Newbro's Herpicide. Herpicide by killing the dandruff germ, leaves the hair free to grow as healthy Nature intended. Destroy the cause you remove the effect. Kill the dandruff germ with Herpicide. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

THE KAISER AT MOROCCO.

As was stated in the Gazette, the Hamburg-American Line steamer Hamburg, with the German Emperor on board, arrived at Tangier, Morocco, yesterday morning from Lisbon. The Emperor was awaited at the landing by the representatives of the Sultan, the diplomatic corps and a big crowd of people. A heavy sea was running when the Hamburg anchored, and the Emperor sent his grand chamberlain ashore to apologize for the fact that he must delay landing, owing to the rough weather, and saying that he probably would land later. This announcement caused the greatest disappointment among the people ashore.

The usual salutes were exchanged between the escorting German cruiser Prinz Frederich Karl and the land batteries and the French warships Linois and Du Chayla.

The town presented a picturesque spectacle. Flowers, rich Moorish embroideries, fine rugs and brilliant eastern costumes everywhere made up a scene heretofore unknown in Tangier.

The Emperor landed later, but many of the diplomats had retired on the earlier announcement that the reception would be deferred. He was received by Abd-El-Malek, the Sultan's uncle, with whom he conversed for sometime. Deputations from the German residents and leading Moors were then presented to the Emperor. The Germans delivered to him an address of welcome, to which he replied as follows: "I am happy to recognize in you devoted pioneers of German industry and commerce who are helping me in the task of always upholding in a free country the interests of the motherland. The sovereignity and integrity of Morocco will be maintained."

The Emperor proceeded to the German Legation, where he held a reception of the members of the diplomatic corps and the Arab notabilities, including former War Minister El Menebhi. Subsequently the Emperor had another long conference with Abd-El-Malek and also a lengthy talk with the Spanish minister. Captain Fournier, the French instructor of the native troops at Tangier, was introduced to the Emperor, who talked with him for sometime.

The Emperor left the legation at 1:30 p. m., saying that owing to the delay in landing he could not remain any longer, but must proceed to Gibraltar.

On his return to the landing stage Abd-El-Malek presented him with the gifts sent by the Sultan and Emperor William re embarked, after having been only two hours ashore.

While it was officially explained that the reason for the delay in the Emperor's landing was the roughness of the sea, after the departure of the Hamburg it was stated on good authority that the Emperor, having heard that there was a possibility of an anti-French demonstration on the occasion of his visit, desired to avoid such an incident.

Another report, which, however, has not received official confirmation, but is generally accepted, states that the German Legation was informed that an anarchist plot had been discovered, and advised that the Emperor be dissuaded from landing. Count von Tattenback-Ashold visited the German legation and interviewed the Moorish authorities, and afterwards notified the Emperor that every precaution had been taken, but advised that the progamme be confined to a visit to the legation. The emperor was only two hours in Tangier.

The Emperor William's visit to Tangier has caused considerable commotion in Paris. Foreign Minister Delcasse made a significant speech in the Senate yesterday afternoon, which evidently was designed to meet questions arising in connection with the visit of Emperor William to Tangier. The minister spoke with moderation, but his closing declaring that resistance in interested quarters would not cause France to modify her policy brought out vigorous applause.

Mustache a Yard Long.

Among the immigrants arriving on the steamship Hanover at Locust Point, Baltimore, yesterday, was Ivan Dosen, a native of Croatia whose mustache measures a little over three feet from tip to tip. It had become so much in the way and had attracted so much attention that he wound it around his neck, with the ends tucked under his hat, giving him the appearance of wearing a hairy necklace. The immigrant told Assistant Commissioner Stump that he was about 42 years old and had never shaved his upper lip, but had taken great pride in the length of his mustache. He had been informed, however, before leaving for this country that he would have to cut it off, as he expected to get employment in a machine shop and was afraid that it might get caught in the machinery. To save himself from this peril he intended to have the much prized treasure removed on reaching Washington. Mr. Dosen was offered a position as an attraction for a hair tonic dealer, but declined the offer.

Four Facts For Sick Women To Consider

Lydia E. Pinkham's Vegetable Compound Has an Unequalled Record of Cures—Mrs. Pinkham's Advice Is Confidential, Free, and always Helpful

FIRST.—That almost every operation in our hospitals performed upon women becomes necessary through neglect of such symptoms as backache, irregular and painful menstruation, leucorrhœa, displacements of the uterus, pain in the side, burning sensation in the stomach, bearing-down pains, nervousness, dizziness and sleeplessness.

SECOND.—The medicine that holds the record for the largest number of absolute cures of female ills is Lydia E. Pinkham's Vegetable Compound. It regulates, strengthens and cures diseases of the female organism as nothing else can.

For thirty years it has been helping women to be strong, curing backache, nervousness, kidney troubles, all uterine and ovarian inflammation, weakness and displacements, regulating menstruation perfectly and overcoming its pains. It has also proved itself invaluable in preparing for childbirth and the change of life.

THIRD.—The great volume of unsolicited and grateful testimonials on file at the Pinkham Laboratory at Lynn, Mass., many of which are from time to time published by permission, give absolute evidence of the value of Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice.

FOURTH.—Every ailing woman in the United States is asked to accept the following invitation. It is free, will bring you health and may save your life.

Mrs. Pinkham's Standing Invitation to Women.—Women suffering from any form of female weakness are invited to promptly communicate with Mrs Pinkham, at Lynn, Mass. All letters are received, opened, read and answered by women only. From symptoms given, your trouble may be located and the quickest and surest way of recovery advised. Out of the vast volume of experience in treating female ills Mrs. Pinkham probably has the very knowledge that will help your case. Surely, any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

SATURDAY EVENING, APRIL 1, 1905.

MR. C. BASCOMB SLEMP, of Abingdon, the new republican State chairman of Virginia, and son of his father, has sent out a circular letter to the Virginia officeholders setting forth that the work of the new Virginia organization will be greatly facilitated by assistance from those enjoying federal offices, and calling for contributions equal to 5 per cent. of salaries received from the government. He says that the money will be used for "legitimate purposes" and the laws of Virginia will be strictly adhered to in the use of all money in the election. The father of young Slemp is Congressman Campbell Slemp, the real manager of republican affairs in Virginia. He quit the democratic party and became one of Gen. Mahone's lieutenants, following the general into the republican field, in which he has continued: Gen. Mahone adopted the "assessment plan" in Virginia, and by means of money and sharp political practices held control of Virginia for a few years. Col. Slemp is trying to follow the role of Gen. Mahone, but he has not the ability of the latter and will fail signally in his attempt to republicanize Virginia. Then, too, there are now strict laws on the statute books prohibiting the use of money for election purposes and the democrats, who are in power, should see that these laws are enforced and bring Mr. Slemp to book should he attempt to violate them. Report comes from southwest Virginia to the effect that Col. Slemp would not be in Congress, but for the questionable manner in which many capitation taxes were paid in his district. But he is the gentleman who keeps standing in the Congressional Record the statement that he was once defeated for the House of Delegates by fraud!

DISPATCHES from the far East state that Japanese agents in various lines of business are settling in China, and gradually winning the good will and confidence of the Chinese. They are also seeking to influence the government to employ Japanese teachers in the schools. Blood is thicker than water and the Chinese and Japanese, being of one blood, will ultimately join forces against the Caucasian race if the latter continues its aggressiveness toward the Mongolians, and if Japan with her forty million people whipped Russia with her four hundred million, what may not be expected of Japan and China combined when the millions upon millions of Chinese soldiers shall have been well drilled and instructed in the art of war by the wily and astute Japanese.

THERE IS friction between France and Germany concerning the internal affairs of Morocco, the outcome of which is occasioning some anxiety in Europe. The two nations appear to be deadlocked, Germany insisting on her pretentions and France openly defying the Kaiser. The latter upon his visit to Algiers yesterday had to decline the ovation tendered him, fearing an anti German demonstration. It has been more than a third of a century since France and Germany locked horns. They have ever since been on the alert and preparing for another conflict, which is generally regarded as inevitable. The Algerine spark may precipitate it.

GERMANY is dropping some rather broad hints that she is also an African power and must be taken into account in any scheme affecting the "Dark Continent." The New York Tribune says: "Owing to recent events in the far East, Africa is now looked upon as a much more hopeful scene for European influence than Asia."

THE U. S. grand jury in Chicago is exhibiting considerable energy in the investigation of the beef trust, and the people who feared they had turned aside from themselves the processes of the courts are now less confident of an unobstructed future.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, D. C., April 1.

President Roosevelt has about cleared off his desk and is ready to start on his southwestern hunting trip. His special train will leave at nine o'clock Monday morning, and it is understood that it will not return with the party aboard until about the 27th or 28h of May. The President will be accompanied by Secretary Loeb, Assistant Secretary Barnes, his young cousin, Lieutenant Fortescue; his physician, Dr. Lambert; Stenographers McGrew and Latta of the White House force, J. G. G. Thompson, Jackson Elliott and John E. Monk, representing the Publishers Press and Scripps McRae, Associated Press and Sun Press associations respectively, and two or three messengers from the White House force who will be taken along to care for the baggage and make themselves generally useful. The President's special will consist of three cars, a private coach, a Pullman sleeper and a combination buffet and baggage car. The route from Washington will lead through Cincinnati, Louisville, St. Louis, down through the Indian territory and Oklahoma to Texas, and up into the Rockies at Colorado. The chief spectacular event of the trip will be the rough rider reunion at San Antonio, which is scheduled to take place on April 7th, but the President will make speeches, long or short, at almost every pausing place. He will be tendered a reception at Louisville and will make an address to the citizens of the city, and will deliver important speeches at Dallas, Austin, and San Antonio. After the Rough Rider festivities are over at San Antonio the President will go on a hunting trip lasting four or five days in Oklahoma. While he is hunting for bear, peccaries, wolves &c., it is planned for the rest of the party to remain at Fort Worth, Texas. On the hunt the President will be accompanied by a few friends among them being Sherman Bell, Adjutant General of Colorado; Phil Stewart, of Colorado Springs, who is to be his companion in the Rockies, and one or two of the Rough Riders. About the 13th of April the President will proceed on his journey towards Colorado and will reach his jumping off place on the 15th. The exact place where the President will last be heard from has not yet been divulged by Secretary Loeb, but it is said to be near Glenwood Springs. From the 15th of April until the 24th or 25th of May, the public will hear very little of the President's maneuvers. Mr. Loeb and his little office force will have their headquarters either on the train or at some little country hotel and there will transact the ordinary routine work of the White House.

President Roosevelt today officially offered the position of chairman of the new Isthmian Canal Commission to Theodore P. Shonts, who since 1898 has been president of the Indiana, Illinois and Iowa Railroad, commonly known as the "Clover Leaf Route." Mr. Shonts visited the White House this morning in company with Secretary Morton, received the offer from the President personally and accepted it.

The State Department was officially advised this morning by Minister Bowen at Caracas of the decision announced by President Arnal, of the Venezuelan Supreme Court, declaring that the French Cable Company had forfeited its franchise on account of failure to fulfill its contractural obligations. Arnal decided, however, against the government's claim for damages. The company will ask for a review of the case by the entire court.

A. P. Gilmer, attorney general of North Carolina, is here today attempting to arrange a settlement of the judgment of $24,700 recently allowed by the Supreme Court of the Uniter States against his State in favor of South Dakota. The action was on repudiated war bonds which has been presented the State of South Dakota by a New York holder of several million dollars worth of southern bonds of a similar character. Today is the time set by the U. S. Supreme Court for North Carolina to finally act upon the judgment.

The Navy Department was advised this morning of the arrival of the U. S. S. Brooklyn at Guantanamo, Cuba, and her departure immediately thereafter for Port au Prince, Haiti, in accordance with the department's orders. Found $200 in Old Coat.

It was like finding money in the street to Peter Cohen, second-hand clothing dealer, in Baltmore, to discover $200 in a coat and waistcoat for which he had given but 20 cents, and it was entirely a different matter for Round Sergeant Strott and Sergeant Forrest, of the Central district, to happen along and find the owner of the $200, who happened to be Mr. Harry E. Chappelear, of Warrenton, Va., recently employed at Bellevue Hospital, New York city.

Early yesterday morning the officers were making a tour of the Space, when they saw Cohen taking something from a coat in front of his store. "It is only some papers," he said, when they asked him what he had, and started to tear them up. The papers, however, turned out to be four orders for $50 each on the Adams Express Company. With a description of the man from whom the coat and waistcoat had been bought the officers made a hurried tour of the water front and in a short time found him on Pratt street. He was hatless, coatless and waistcoatless and seemed dazed. When shown the orders he recognized them and said that he thought they had been stolen. He said that one morning he awoke on the sidewalk and found that his shoes and hat had disappeared and that a pocketbook, containing $14, was also gone. He had sold his coat to get breakfast. He had become intoxicated in New York March 16, he said, and had a very vague recollection of what had happened to him since. After cashing the moneo orders he had a bath, shave, bought some new clothes and started "straight for home."

From Key West to Havana.

It is ninety miles from Key West to Havana, with a railway terminus at the former place where trains of cars could be ferried over without breaking bulk, making the round trip inside of ten hours. It is now proposed to build a railway through a part of the Everglades and across the keys, a distance altogether of 120 miles, much of it under water, but not very deep water. These outlying islets form a chain stretching into the Atlantic, with channels between them varying in width from a few hundred feet to several miles. In all twenty islands are available for the extension, but no less than forty miles of elevated work must be built above the water, not counting the trestlings between Key Largo and the mainland. "The Scientific American" calls the plan the most notable which has ever been conceived in railway engineering. The extension will be one of the costliest pieces of work a mile ever executed. But it is feasible and will be worth what it costs. When it is done Cuba as a winter refuge will be little farther off in point of time from dwellers in this latitude than northern Florida.

NEW YORK MAY SUE VIRGINIA.

That the States of Virginia and West Virginia, or both, may have to defend a suit instituted by another State on the certificates of debt of this State is becoming more apparent as time passes, unless Virginia herself begins suit in the United States Supreme Court for a settlement with West Virginia. The State of Maine recently refused to accept a donation of Virginia debt certificates with the view of suing this State, but it is not likely that other States will take as high a view of the matter.

Indeed, a bill has already been introduced in the New York Assembly by Mr. Head, and referred to the judiciary committee, entitled "An act to authorize the acceptance by this State of gifts, bequests and assignments of the bonds, warrants, choses in action or other obligations of any other State, and to enforce the collection thereof." This bill is directly applicable to the Virginia-West Virginia debt certificate situation.

The bill in full follows:

Section 1. Whenever any person or persons, copartnership, corporation or association shall give, bequeath or assign to the State of New York any bonds, warrants, chose in action or other obligations of any other State, the Governor is hereby authorized in his discretion to receive and accept the same for the benefit of the State and the right and title thereto and therein shall thereupon pass to and vest in this State, and the same and all the proceeds thereof when collected shall be held by the comptroller in a special account or fund subject to be appropriated by the legislature only for the support of common schools, or for the promotion of some educational interest in the State.

Section 2. Whenever it shall be necessary to protect or assert the right or title of the State to any such bonds, warrants, chose in action or other obligations so received, or to collect or enforce the same or any part thereof, principal or interest, the Attorney-General is hereby authorized and directed to take the necessary and proper proceedings or to bring suit thereon in the name of the State in any court or competent jurisdiction, State or Federal, and to prosecute all such suits or proceeds to a termination.

RUSSIAN AFFAIRS.

In Washington it is reported that the United States and France, among the neutral powers, lead in trying to restore peace in the far East, and it is understood that steps with this end in view have been actively taken, although officials reported to be directly concerned deny this latter statment.

The Japanese are specially active along the Mongolian frontier, where the Chinese are said to be spreading an anti-foreign propaganda.

Prices on the St. Petersburg bourse were steadier, imperial 4s having a decidedly firmer tone.

The terrorist propaganda seems to be growing steadily in St. Petersburg. A policeman who attempted to arrest a man suspected of having designs upon Governor General Trepoff's life was shot at, but uninjured, and a number of bombs were found in a lodging house.

Incendiaries set fire to the war houses of the Russian Steamship Company at Sevastopol, entailing a heavy loss.

Five hundred peasants besieged the Greek Monastery at Vardzia, Caucasus, demanding the title deeds to the property.

Russian Church For Independence.

The movement for severing the traditional bonds between church and state and giving to the Holy Orthodox Church independence and self rule, which will increase its influence among the people of Russia, has found favor with an important group of clergy at the capital; and a noteworthy document setting forth the views of those of this persuasion, which was presented to Metropolitan Antonius, of St. Petersburg, has been received with sufficient consideration to insure its publication in the Church Messenger, the semi-official organ of the diocese of St Petersburg and one of the most important religious papers in the realm.

The document, after arguing that the church should free itself of obligation to the state in order to lend all its energies to the prosecution of its own special work and eliminate the suspicion that its ministrations may be inclined toward worldly ends and interests, demands the summoning of a general council of the church to consider means of attaining the greater freedom required. The movement is believed to be now largely confined to a group of metropolitan clergy, and it is not known to what extent the priests in the country at large are affected.

Boiler Inspector Charles Weberhold was killed today, while at work in the Philadephia & Reading carshops at Reading, Pa., by coming in contact with a live wire. Death was instantaneous.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Mr. Wm. S. Kincheloe died on Tuesday, after a long illness, at his home near Clifton, Fairfax county. Joseph Fentress, William Primpert, and James Daye, members of Company B. Seventy-first Virginia Regiment, National Guard, were held in Norfolk yesterday for the grand jury on a charge of breaking into the regimental armory and stealing upward of seventy-five military shirts, which are alleged to have been placed in pawn by the defendants and others who have not yet been arrested.

Orders were received in Norfolk yesterday to disband Grimes's Battery, one of the oldest artillery organizations in the State service. No cause for the disbandment was given in the orders, which simply announced that the organization would formally cease to exist as a part of the First Battalion of Artillery. Lack of interest among the members of the company is attributed as the cause of the adjutant general's action.

A serious fire badly damaged the second floor of the recently constructed equipment building in the Norfolk navy yard yesterday afternoon, and for an hour the structure was in danger. As no official information could be secured, it is impossible to estimate the amount of damage, which, it is said, however, will not exceed $2,000. The fire is believed to have been caused by the ignition of a can of gasoline from a torch in the electro-plating room.

IS MRS. MAYBRICK FREE.

Mrs. Florence Maybrick, accompanied by her counsel, yesterday had a long conference with acting Secretary of State Adee.

In the course of legal proceedings now in progress in Washington to which Mrs. Maybrick is a party, involving considerable property interests, some obstacle has been encountered in availing of Mrs. Maybrick's testimony because of her peculiar legal status, and she is seeking the good offices of the State Department to procure from the British government the papers necessary to rehabilitate her completely in the eyes of the law. The State Department probably will take up the matter with the American Embassy in London.

It has never been stated definitely or authoritatively just how Mrs. Maybrick is now enjoying her freedom. It has been asserted that she is out on a "ticket of leave." At the time she was leaving England last year year to return to America the question arose as to whether she had been expatriated through her imprisonment and whether she might land in New York as an American, but the Government decided that she had not forfeited her citizenship, and she landed without difficulty. During Mrs. Maybrick's examination before a justice in Washington this week the only light thrown upon the manner of her release was toward the end of the taking of the deposition, when, upon cross-examination by Attorney Armstrong, whom she is suing, the following statements were made by Mrs. Maybrick:

"Have you received a pardon from the British government, Mrs. Maybrick, from the conviction of August, 1889?" was asked.

"That is objected to as a matter of record," said Mr. Hayden, "and that record is of such a nature that it cannot be disclosed. The best proof is the record itself."

Mrs. Maybrick made no answer, and was then asked; "Have you the record bearing on the question of your release?"

"I have papers in my possession," she said, "which were given me by the British government."

"Are you willing to produce them to be filed as a part of this deposition?"

"They are not permitted to be produced," she said, "except at the request of the American government."

Attorney Hayden interposed at this juncture to say: "It is one of the conditions, I will state at this time."

Today's Telegraphic News

Oxford Victorious.

London, April 1.—Oxford recorded another victory over Cambridge today, when her crew defeated the Cambridge representatives in the annual boat race rowed on the Thames. Oxford won by three lengths in the time of 20 minutes, 35 seconds. Fully 100,000 boating enthusiasts had gathered at Putney and along the banks of the river, where the great race is rowed, and enthusiasm was at a high point, each crew having thousands of backers present to witness the great struggle for supremacy on the water. There was a slight wind from the northwest, but the water was not stirred by a ripple. The sun shone on a perfect day. The river banks were covered with a dense mass of shouting people when the crews paddled to the starting point on the front of the Putney bridge at 11:20. Cambridge won the toss and chose the Surrey side. The starting gun was fired at 11:34. Oxford, pulling thirty-six strokes, shot ahead of Cambridge, whose stroke was thirty-five, at the start. Two minutes after the race began, Oxford led by one length. This lead was slowly increased until the Hammersmith bridge was reached, when Oxford led by two lengths. Cambridge then spurted and cut down the lead half a length, but almost immediately dropped back. Oxford allowed her stroke to drop to thirty-two. Cambridge pulled desperately at thirty four, but was unable to cut down her rival's lead. The shells continued at two lengths apart until approaching Barnes bridge, when the Cambridge crew seemed to go to pieces. Oxford, taking advantage of this, increased her lead to four lengths. Cambridge labored desperately and crept up a length on her opponent, but could do no better, and this position was maintained to the end of the race, Oxford crossing the line three lengths ahead. Time 20 minutes, 35 seconds.

Terms of Peace?

London, April 1.—A dispatch to the Exchange Telegraph Company from St. Petersburg says that it is asserted in diplomatic circles that the terms of peace which would be acceptable to Russia include the cession of the railway from Harbin to Port Arthur to China, and payment of 500,000,000 roubles (about $250,000,000) to Japan in the form of a concealed contribution.

St. Petersburg, April 1.—The state bank has begun making heavy purchases on the stock exchange of Russian four per cent bonds, which advanced two points under the buying. The circumstance is generally interpreted as an indication of the approach of peace.

Anti-Peace Demonstration.

St. Petersburg, April 1.—A remarkable anti-peace demonstration occurred here last night, and has caused a great deal of comment. A meeting of the Economists' Club, which is composed of the highest class of military men, statesmen, scientists, and financiers, was held which was attended by 400 members. Fiery speeches denouncing the peace agitation were made. The addresses were characterized by vigorous attacks made on America by the speakers, who declared that a bill is being made out in Washington for idemnity to be paid by Russia to Japan. The meeting caused a sensation, as it goes to prove that a majority of the upper classes are opposed to peace.

Russia's Attitude.

St. Petersburg, April 1.—In interviews with your correspondent today Russian officials explained why Russia takes such a firm stand on the subject of refusing to pay an indemnity to Japan. Russia's position in the diplomatic discussion of the indemnity question is based on the fact that the great war is being conducted in neutral territory, and it is without precedent that the victor should demand indemnity unless it has occupied the defeated nation's territory. Japan's answer to these contentions is that all the conditions of the present conflict are unprecedented, and that the peace terms must be the same.

Russian Extreme Measures.

St. Petersburg, April 1.—The government is still carrying out its policy of using extreme measures toward soldiers who rebel against going to war. At Sedletz forty-seven artillerymen were tried on the charge of traitorous conduct in avoiding active service in the far East. Four of the men were sentenced to be shot, three to imprisonment, twenty-six were sent to the disciplinary battalion, and the rest were discharged.

Russian Losses.

St. Petersburg, April 1.—The newspaper Razzveit publishes an estimate of the Russian losses in men and money in the war in the far East. The figures show that 335,000 men; have been killed, wounded or captured, while the number of sick is placed at 100,000. The financial loss is estimated at 1,300,000,000 roubles. The loss at Port Arthur is estimated at 50,000,000 roubles, and this is included in the general figures.

Injured by a Bomb.

St. Petersburg, April 1.—A telegraph message received here from Lodz says that Police Commissioner Szabolwich was seriously injured by a bomb which was thrown at him in the street this afternoon.

Left For St. Petersburg.

Rome, April 1.—Ambassador Robert von L. Meyer, who has been transferred to St. Petersburg, and his family left here today. There was a large crowd at the station to see the American diplomat start and many wishes were expressed for the future success and happiness of the Ambassador, and his family. The diplomatic corps turned out in force, to bid farewell to the Ambassador and the American colony was well represented in the crowd. Yesterday the Pope received Mr. Meyer and his family in private audience.

Will Fight Requisition.

Cincinnati, O., April 1.—It was learned this morning that Attorneys Shay and Cogan, the Cincinnati lawyers who have come to the aid of J. Morgan Smith and his wife, brother-in-law and sister of Nan Patterson, were retained by the parents of Mrs. Smith, who live in Washington. The attroneys will fight the requisition for the couple and have applied for a writ of habeas corpus. The hearing has been set for next Monday. When Mrs. Julia Smith is taken back to New York, it the efforts in her behalf fail, she and her husband will be confronted with an affidavit, made by close friends which tell a story of an alleged conspiracy to extort money from bookmaker Frank (Caesar) Young, a month before his death. It will be alleged at the trial that the life of Young was threatened unless he gave up money.

The charge of being fugitives from justice as made against J. Morgan Smith and wife, was called in police court this morning, and continued until Thursday next. The police are puzzled over the fight started against the return of the Smiths to New York, in view of the fact that Nan Patterson's attorneys pretend to be happy over the fact that the Smiths have been found and were to be taken back to New York.

Alfred G. Vanderbilt Arrested.

New York, April 1.—Jostled by a crowd of drunks and disorderlies in the Harlem police court this morning, Alfred G. Vanderbilt, whose fortune is estimated at $80,000,000, was held in $500 bail for trial in the court of special sessions on a charge of violating the speed laws. Mr. Vanderbilt had evidently believed that he would be fined a small amount and the incident would be at once closed. and when Magistrate Baker said that he would be obliged to stand trial he paled perceptibly. His lawyer, Chandler H. Anderson, was also apparently nonplussed. "You are apparently not familiar with the workings of the police court," said the magistrate, noticing the confusion of the young man. "I have no right to accept the fine you offer, and let you go. I must hold you for trial in special session." Mr. Vanderbilt offered as bail his house at No. 105 east 51st street, valued at $45,000, and entering his big red automobile, drove away.

Miners Idle.

Altoona, Pa., April 1.—All the coal mines in central Pennsylvania employing some 55,000 men are idle today. The old wage scale of 62 cents expired last night, and no new one has been signed. Until it is, the organization miners will refuse to work. April 1 is always a holiday with the miners. At all important coal centres mass meetings are being held and "stand firm for your demands" is the keynote of all speeches. Monday the strike will be inaugurated unless the operators at Philadelphia agree today to pay the old scale. Only two operators have so far agreed to pay it—Stineman interests, at South Fork, and the Buffalo, Rochester and Pittsburg interests, at Dubois—to avoid a strike. The miners are anxiously watching the Philadelphia meeting. There is little prospect of a settlement of the wage scale, according to the word received from the central Pennsylvania mine workers' headquarters at Clearfield at noon.

Marconi and His Bride.

New York, April 1.—Signor Marconi, the inventor of wireless telegraphy, and his bride of five weeks, who was Lady O'Brien, arrived here today on the Cunard liner Campania. It is Mrs. Marconi's first visit to this country, and she confessed that she was somewhat awed by the bigness of everything, especially the buildings, nothing like which she had ever seen before. Mrs. Marconi is a very beautiful woman. She is tall and fair, with light brown hair, rosy cheeks and big brown eyes. She has a magnetic smile, revealing even teeth of almost dazzling whiteness. Beside his girl bride the inventor looks very small physically, the top of his head coming but little above her shoulders.

Landslide and Accident.

Little Falls N. Y., April 1.—Two persons were killed this morning by West Shore train No. 8, an accommodation, by a landslide two miles east of St. Johnsville, and rolling down an embankment to the edge of the canal. They are engineer Wilkinson, of Utica, N. Y., and the fireman, James Wright, of Albany. The engineer and fireman were buried under the engine which toppled into the canal. There were 25 passengers on the train, but fortunately all escaped injury, other than slight bruises. The rails on both tracks were torn up for a quarter of a mile and the road will be blocked for many hours.

Rubber Factory Destroyed.

Buffalo, N. Y., April 1.—At 9:30 this morning fire broke out on the fourth floor of the building occupied by G. E. Thing & Co. wholesale dealers in rubber goods, in Pearl street. Twenty employes on the fourth and other upper floors slid down the fire escapes to safety. It was at the start feared that lives had been lost. The flames made their way to the fifth and sixth floors and then leaped above the roof of the building. At 10:30 o'clock the fire was under control, but the building and contents were a total loss, which was placed at $200,000 on stock and $50,000 on building.

Train Ditched.

Little Falls, N. Y., April 1.—West Shore train No. 8, an accommodation, was ditched by a landslide two miles east of St. Johnsville, at 8 o'clock this morning. Engineer Wilkinson, of Utica, and his fireman are missing and it is feared they are buried in the debris. All the cars were thrown from the track and to the bank of the canal. None of the passengers was injured. A special train carrying doctors and railroad officials has left this city for the scene.

Mother and Two Children Perish.

Richmond, Va., April 1.—A special dispatch from Charlottesville says that the home of W. E. Thompson, near Shadwell, five miles east of Charlottesville, was burned early this morning, and that Mrs. Thompson and two children perished in the flames. Mr. Thompson was absent from home at the time of the fire.

IN MEMORIAM.

In fond remembrance of my beloved son, GEORGE W. DIX, who departed this life April 1, 1903—two years ago today.

God alone knows how I miss him
In my home, oh, my son dear,
How for thee my heart is grieving,
How I long thy voice to hear.
Dearest son, yes, we all miss you,
I often look to see if you are there,
When we are seated at the table—
Oh, that lonely, vacant chair.

The Equitable Society.

New York, April 1.—James H. Hyde, vice president of the Equitable Life Assurance Society, and the man who has practically controlled its affairs in recent years, must decide today whether the internal war in the company's affairs shall cease or continue. His opponents, headed by President J. W. Alexander, have set a high price as the cost of peace. That is that Mr. Hyde step down and out immediately and turn over to representatives of the policy holders the control of the the company's many millions. Numerous sensational charges against Mr. Hyde's management of the company's affairs, have been allowed to creep into the public prints, and these are pinted to as reasons why Mr. Hyde should retire. These charges, of course, have come from some of Mr. Hyde's opponents. Up to the present time he has not personally denied them, but the indications today are that a statement regarding them will soon be forthcoming.

Boring for Oil.

The Appalachian Conduit Co. has purchased the necessary machinery and will soon put down from one to twenty test holes, prospecting both for oil and coal. These test holes will be sunk mainly near the foot of the Bull run mountains, in Gainesville district, at first, though some may be sunk on the southern and eastern sides of the Manassas sandstone belts, also in this county. Some tests are likely to be made in Fauquier county.

The Appalachian Conduit Co. has leases on 22,000 acres of land and we have positive information to the effect that these tests will be made. We can further say that there are strong indications of both coal and oil in Prince William. In fact there is coal and oil. The only question is the quantity. Owing to the fact that these out croppings or evidences spread over a wide belt the presence of both in considerable quantities is indicated.

Before the summer passes we are likely to know, as the tests will begin within ninety days, possibly within thirty days, as the necessary capital has been secured for this purpose.—[Manassas Journal.

An Angel Dancer Shoots Himself.

John McClintock, one of the angel dancers of Lord's Farm, Woodcliff, N. J., who was known far and wide as "John the Baptist," shot and killed himself yesterday afternoon on Lyttle's farm a short distance from Lord's farm. A month ago Huntoman T. Mason, the head "angel dancer," refused to allow John the Baptist to find shelter there any longer. McClintock brooded over this continually and yesterday produced a revolver and shot himself through the heart. McClintock was the most rabid of the many fanatical characters who have made Lord's farm notorious. He wore the longest beard and the longest hair of any of his fellow worshipers. He was also a fervent exhorter, and made many long pilgrimages for the purpose of winning proselytes to his strange creed. When Dowie was in New York exhorting in Madison Square Garden "John the Baptist" started a revival on his own hook in Madison Square Park. He also followed "Elijah III," to Boston, and once when they met in the street a personal encounter was narrowly averted.

Professor Jacob H. Hollander appointed special commissioner to Santo Domingo for the purpose of investigating the financial system and conditions of the island government for a report to President Roosevelt, sailed from New York, for San Juan, Porto Rico today.

Fishtown Redivivus.

Fishtown is slowly manifesting life, daily receipts of small lots of fish from the lower river having set the wheels of the season in motion. About 20,000 herring arrived yesterday, and this morning the schooner Kathleen, from Bretou s Bay, was at the wharf with 18,000 herring and 1,000 shad aboard. Herring were quoted at 1 cent a piece by wholesale, and roe shad at 40 cents and buck at 20 cents each.

Shad are moving higher up the river, three having been caught in Broad creek about two miles below this city, yesterday.

"I believe this is going to be a good year for shad in the Potomac," remarked United States Fish Commissioner Bowers last evening. "I spent a couple of weeks recently in Cuba, and on my way north stopped at Sanford, Fla. There I found the run had been very large. The third run of the season was in progress during my visit. I take that as a good omen for the shad catch in the Potomac. The season has been late here because of the cold water. Most of the water in the Potomac now is from melting snow in the mountains. Our men at the station on Bryan's Point, near Mount Vernon, while waiting for the run of shad, have been doing yellow perch work with excellent results. Up to night before last they had collected 30,000,000 eggs. Before the season is over I believe the collection of perch eggs will amount to 50,000,000. We shall hatch these at Bryan's Point, and plant the perch in the Potomac. There has been a little falling off in the supply of these fish in the river. We want to replenish it."

Virginian a Candidate.

Mrs. Stewart Jamieson, of Alexandria, has consented to allow her name to be used as a candidate for the office of register-general of the national society of the Daughters of the American Revolution, which is one of the most difficult and onerous offices of the society. Mrs. Jamieson has a host of friends in this city and has frequently visited Mrs. Anna Jamieson, of Union Theological Seminary. Her husband is a nephew of the Rev. Dr. J. Calvin Stewart, of the Church of the Covenant. Personally, Mrs. Jamieson is charming and intellectual and fully qualified to fill a position of this kind. She is a member of Mount Vernon Chapter, at Alexandria. The election will take place at the continental congress, which meets in Washington the week of April 17.—[Richmond News-Leader.

Police Court.

There was but one case before the Police Court this morning, that of Frank Sheppard, colored, who was locked up last night for creating a disturbance on a southbound electric car. He was taken in charge by Officer Sherwood. It was suggested that Sheppard was a policy-promoter, and that before being taken in charge he discarded some slips which were picked up by a white man. Officer Roberts when he had learned of this, proceeded to north St. Asaph street where he found the man who had the slips and took possession of them. The evidence this morning was to the effect that Sheppard had thrown Conductor Bell's punch out of a car window. He was fined $5 for disorderly conduct and $20 for promoting gambling.

A Spring Market.

The market court this morning was livelier than for months past, an increased number of buyers and sellers being present, while the display of country produce was more profuse than on any Saturday morning since early fall. Flowers were conspicuous and there was an abundance of green stuff (kale, spinach, sprouts, lettuce and spring onions). Prices were weaker. Butter was plentiful and brought from 25a30 cents a pound, and eggs 15a16 cents a dozen. The fish benches were filled with several varieties, mostly shad and herring, which are slowly declining in price.

The First of April.

April made its advent today amid pleasant spring-like conditions. The mellow sunbeams, the clear sky and the comfortable temperature made all feel happy after the severe winter which is now but a reminiscence. Organ grinders went from street to street, adding their mite toward enlivening the spirits of both old and young. The small boy was at his juvenile trick early, endeavoring to attract passesby to imaginary objects. A company of youngsters appeared in market and succeeded in making a number of buyers believe they had dropped a certain articles from their baskets.

Personal.

Mr. Charles Schreiner, who was recently stricken by paralysis, is still critically ill at his home on south Fairfax street.

Mrs. Brawner Mills is seriously ill at her home on south Lee street.

Rev. Dr. Brooke, of the Second Presbyterian Church, went to Bealeton a few days ago and was present at the congregational meeting that called Rev. Robert Campbell Gilmore, now of Bessemer, Ala.

Rev. Dr. James I. Vance, of Newark, N. J., former pastor of the Second Presbyterian Church in this city, will preach in that church next Wednesday night. Dr. Vance will preach the anniversary sermon before the "Covenanters" in Richmond tomorrow, and at Fredericksburg on Tuesday night.

Mr. Geo. K. Pickett, of Annandale, who has been quite sick for some time past is gradually improving, and is now able to walk about the house and yard.

Miss Edith Ramsay is visiting Miss Anna Carr in Richmond.

Mrs. Wm. Woolls will sing Gounod's "There is a Green Hill Far Away" at the offertory at St. Paul's Church tomorrow morning.

Mr. S. Genzberger, formerly of this city, but now of Montana, is on a visit to relatives and friends in this city.

Mr. Lewis McK. Bell, collector of customs for the District of Alexandria, today reappointed as his special deputy collector, Mr. George A. Nowland.

Fast Run.

Mrs. James J. Hill, wife of the president of the Great Northern Railway Company was prostrated by serious illness at Ormond, Fla., a day or two ago, and extraordinary means were taken to get her to New York for treatment without any delay. The Florida limited of the Seaboard Air Line, which makes no stops save to change engines, hauled Mr. Hill's private car from Ormond to New York on what, it is believed, will prove to be record time. Orders were issued to this effect, and the invalid and her noted husband came north on the Seaboard flyer. All the assistant general passenger agents and other officials in charge of the divisions over which the car will pass in its race against death were instructed to use especial vigilance to see that it is expedited. The train is expected to pass through this city on the Washington Southern Railway tonight.

Funeral.

The funeral of the late Walter Parrish Atkinson, whose death occurred Thursday, took place from the home of his parents, Capt. and Mrs. R. H. Atkinson, 917 Cameron street, at 3 o'clock this afternoon. A large number of friends and acquaintances of the deceased attended. The services were conducted by Rev. J. P. Stump. The pallbearers were Messrs. Joseph Noland, Richard Mumford, Emmet Kelly, Edward Brawner, James Douglas and Hugh Todd. A delegation of the Machinist Union, in Washington, of which the deceased was a member attended the funeral.

Conference Bounds.

As heretofore stated, an effort is being made to have the Baltimore Conference of the M. E. Church, now in session in Washington, incorporate certain territory in the vicinity of Alexandria, now in the territory of the Virginia Conference. It contains 10 appointments, 16,000 members and $75,000 worth of property, with only $755 debt. A committee from the Virginia Conference yesterday presented the proposition, but no action can be taken until the matter is acted on by the General Conference. The committee consisted of A. H. Jefferies, W. S. Miles and J. S. Seltner.

The Electric Railway.

The Washington, Alexandria and Mt. Vernon Railway expect to deliver passengers in its new station at Pennsylvania avenue and Twelfth street, Washington, within two weeks. The tracks and conduit for the electric cables have been laid through C street from Fourteenth to Twelfth street, and the paving is now going on. It is said that the first of the new cars and motors from Philadelphia will probably reach Washington Monday. They will be put into service at once, and some of the old stock is to be retired.

Report Filed.

In the Corporation Court today E. B. Taylor, commissioner in chancery, to whom was referred by the court for report, the suit of Wm. C. Wibirt, executor of the late F. E. Corbett against the First National Bank and others, has filed his report, which is one of the most voluminous ever filed in this court, it being upwards of 100 typewritten pages. All matters in connection with a settlement of the estate of the late F. E. Corbett are fully discussed in the report.

County Out of Debt.

There is now in the hands of the Board of Supervisors $4,692.62, recently paid on account of the old court house in Alexandria city. This, together with the $7,871.59 in the county and court house funds, makes $12,564 21 which could be applied to taking up the $12,000 bonds now outstanding against the county on account of court house. This would leave the only indebtedness of the county the balance due for repairing jail and court house this year, in all about $6,000. —[Monitor.]

To Erect Water Tower.

The Southern Railway Company is making preparations to erect a water tower on their property adjoining Roberts' mill, a short distance west of this city. The company has notified the lessees of the property to vacate the same by the first of May. Water for the tower is to be pumped from Cameron run.

Deaths.

Mrs. Lydia Hicks (nee Violett) died at her home on Lee street, between King and Prince, yesterday evening, aged 19 years.

Ernest, the fifteen-year-old son of Mr. Charles Simms, died at his parents' home, near Mount Zephyr, Fairfax county, a day or two ago.

The National Cemetery.

Mr. Reeves, who will succeed Capt. J. V. Davis as superintendent of the National Cemetery at this place, arrived here, Capt. Davis's term having expired today. The latter will leave for Antietam in about a week.

Coddle Themselves Too Much.

Old people often make the mistake of coddling themselves too much, says a physician in What to Eat. Thus they cause a weakening of the vital forces before the advance of age has done so. Nature never intended that a man should be put into a hothouse at sixty and kept there as a delicate plant. Too much solicitude about the health of such a person may be the actual cause of death. The vitality of the person may be somewhat lessened at sixty, but the man or woman whose health has received a fair amount of attention is not by any means ready to be shelved at that age. All that is required is a little lessening of the burden of life and a little more care of the health.

Facts About Bath Brick.

Few would connect the common bath brick of our kitchens with a caprice of nature or would credit that there is but one spot on the entire globe where these scouring blocks can be manufactured. Yet so it is, for all bath bricks are made at Bridgewater, in Somersetshire, and there only, because the river Parret deposits for a distance of a few hundred yards only the peculiar compound of sand and slime of which they are composed. Nowhere else in the world is a similar compound to be found.—London Mail.

More Stoical Than Red Indians.

No red Indians were ever more callous to pain than the aborigines of Australia. In their tribal fights, which still occur frequently, the severest wounds are treated with indifference. Old Australian settlers are fond of telling a famous story of a tribal chief who walked sixty miles with a spear sticking clear through his body before he could get help to pull it out. They insist that the story is true.

Their Fatal Mistake.

Returned Traveler—What has become of Catchem & Cheatem, the rich lawyers? Retired, I presume? Resident—Yes, retired. They are both in the poorhouse.
"Phew! What happened?"
"They had a quarrel and sued each other."—New York Weekly.

Improving the Time.

Little Bobbie left his mother's lap and climbed up on his father's knee.
"Do you love papa more than mamma?" asked Aunt Kate.
"No," replied the youngster. "But mamma and I are both going to heaven, and grandma says papa won't if he don't stop smoking in the parlor, so I'm going to see all of him I can now."—Cincinnati Commercial Tribune.

Are You Engaged?

Engaged people should remember, that, after marriage, many quarrels can be avoided by keeping their digestion in good condition with Electric Bitters. S. A. Brown, of Bennettsville, S. C., says: "For years my wife suffered intensely from dyspepsia, complicated with a torpid liver, until she lost her strength and vigor and became a mere wreck of her former self. Then she tried Electric Bitters, which helped her at once, and finally made her entirely well. She is now strong and healthy." E. S. Leadbeater & Sons, druggists, sells and guarantees them at 50c a bottle.

Taking Desperate Chances.

It is true that many contract colds and recover from them without taking any precaution or treatment, and a knowledge of this fact leads others to take their chances instead of giving their colds the needed attention. It should be borne in mind that every cold weakens the lungs, lowers the vitality, makes the system less able to withstand each succeeding cold and paves the way for more serious diseases. Can you afford to take such desperate chances when Chamberlain's Cough Remedy, famous for its cure of colds, can be had for a trifle? For sale by Gibson & Timberman and W. F. Creighton & Co.

A Dinner Invitation.

After a hearty meal a dose of Kodol Dyspepsia Cure will prevent an attack of Indigestion. Kodol is a thorough digestant and a guaranteed cure for Indigestion, Dyspepsia, Gas on the Stomach, Sour Risings, Bad Breath and all stomach troubles. N. Watkins, Lesbus, Ky., says: "I can testify to the efficacy of Kodol in the cure of Stomach Trouble. I was afflicted with Stomach Trouble for fifteen years and have taken six bottles of your Kodol Dyspepsia Cure, which has entirely cured me. The six bottles were worth $1,000 to me." Sold by all druggists.

Nothing will cure Indigestion that doesn't digest the food and give the stomach a rest. It isn't necessary to starve yourself in order to rest your stomach—take Kodol Dyspepsia Cure. It will digest any quantity of all the wholesome food you want to eat while your stomach takes a rest—recuperates and grows strong. This wonderful preparation is justly entitled to all of its many remarkable cures. Sold by all druggists.

FOR OVER SIXTY YEARS

AN OLD AND WELL-TRIED REMEDY.—Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup and take no other kind.
